EIGHTH EDITION, 1983

INTRODUCTION

This is the eighth annual Journal Holdings Report of the library system of the United States Environmental Protection Agency Library Systems Staff. It includes approximately 5,000 unique titles and 9,000 holdings records.

The report is arranged alphabetically by title. Underneath, libraries retaining the title are listed alphabetically by library code. The legend for these codes begins on the next page.

DEFINITION OF DATA ELEMENTS

I. TITLE DATA:

A. TITLE:

A. TITLE: Verified titles conform to the ANGLO-AMERICAN CATALOGING RULES (AACR) as recorded in the UNION LIST OF SERIALS (ULS), NEW SERIAL TITLES (NST), Library of Congress Card Catalog (LC). In addition, the following policies have been established:

- Acronyms are treated as words and therefore sort in alphabetical order with other words (e.g., FBI).
- Roman numerals are converted to Arabic.
- Titles longer than the alloted space are abbreviated from right to left using the AMERICAN NATIONAL STANDARD FOR THE ABBREVIATION OF TITLES OF PERIODICALS. For titles still exceeding the specified length ". . ." is used.
- State publications in most instances are found under the state name.
- Subtitles are included and are denoted by use of ":" immediately following the title entry.
- University publications are cataloged under "University of . . ."
- Association publications, such as bulletins, journals, proceedings are listed under the association.

B. ACRONYM TITLES:

1) If title acronym is explained in publisher statement, no further definition is provided.

2) If titles appear under both the acronym and the full name, a "See Also" reference both ways is provided.

3) If not handled by case 1 or 2, the acronym is defined in the bibliographic notes.

Ex: AMA Journal
(American Medical Association)

C. SEE — SEE ALSO REFERENCES:

- When a title is corrected to conform to AACR rules and this cataloging change affects its sort sequence, a "See" reference directs the user from the title to the correct title.
- When an association has publications listed both by its name and by its acronym a "See Also" reference directs the user to both locations.

D. TITLE HISTORY: Indicates former and current titles and title merges. The following codes are used:

A = Absorbed or Incorporated
C = Currently
F = Formerly
M = Merged
V = Variant

- One former title (F) and one current title (C) will appear for each title when applicable.
- "Merges" (M) is used when two or more titles combined to form the current title. A plus sign (+) appears between the two titles.
- For some titles, a complete title history is provided. In these cases, the code "V" is used, indicating variants of the title, rather than "F" (formerly).
- If the corporate author appears in the title and has changed, the note states:

V: (issued under name) . . .
or
F: (issued under name) . . . (where ". . ." is the corporate author)

D. **TITLE HISTORY** (cont'd)

- If the title listed in the verification source is in English with the foreign title referenced in the notes, the title history references the foreign title as "(translation of) . . ."
- If the title listed in the verification source is foreign with the English title referenced in the notes, the title history references the English title as "(translated title) . . ."
- If the corporate author appears in the title and is the same but the title changes, the note reads:

  F: Its . . .
  or
  C: Its . . .

- If the verification source indicates uncertainty about the history, the note reads:

  F: (?) . . .
  or
  C: (?) . . .

- If the title ceased publication and was absorbed into another title, the note reads: "C: (incorporated into) . . ."
- If the title listed in the history note has ceased publication and has been absorbed into the listed title, it will read: "A: (incorporates) . . ."

2. **BIRTH/DEATH DATE(S).** The beginning and ending volume/year data.

- Multiple series are handled by separating each volume/year range with a semicolon (e.g., 1-29 1900-28; 1-1929-).
- A dash (-) indicates the title is active (e.g., 1- 1972-).
- A question mark (?) indicates that the verification source could not provide definitive dates.

3. **PUBLISHER AND PLACE:** The latest publisher and place are used.

- If there are two United States publishers, only the first is listed.
- If there are two publishers, and one is foreign, the United States publisher is preferred.
- When a title includes the name of an association and that association is also the publisher, only the place of publication is given.

4. **FREQUENCY:** The current frequency is provided, using one of the following codes:

AN	Annual
BA	Biennial (every 2 years)
BM	Bimonthly (every 2 months)
BW	Biweekly (every 2 weeks)
DA	Daily
IR	Irregular
MO	Monthly
QU	Quarterly
SA	Semi Annual (twice a year)
SM	Semi Monthly (twice a month)
TM	Trimonthly
WK	Weekly
05	5 issues/year
07	7 issues/year
08	8 issues/year
09	9 issues/year
10	10 issues/year
11	11 issues/year

5. **VERIFICATION SOURCES:** Up to three (3) sources where the cataloging data is collected can be listed for a title. The following source codes are used:

DOI	U.S. Department of the Interior, Natural Resources Library
FAL	Fine Arts Libraries

5. **VERIFICATION SOURCES:** (cont'd)

FDA	U.S. Food and Drug Administration
IRR	Irregular Serials and Annuals
IUA	Interlibrary Users Association
LC	Library of Congress Card Catalog
NST	New Serial Titles
SDS	Sigma Data Computing Corp.
TPI	Title Page Information
ULR	Ulrichs International Periodical Directory
ULS	Union List of Serials

6. **BEGINNING VOLUME.** Represents the beginning volume (or month) held by the library.

7. **BEGINNING YEAR.** Represents the beginning year held by the library.

8. **ENDING VOLUME.** Represents the ending volume (or month) held by the library. If the subscription is active, the words "To Present" appear.

9. **ENDING YEAR.** Represents the ending year held by the library, if applicable.

10. **HOLDINGS STATEMENT:** If issues are retained for a specific period only, that is indicated through a general statement such as "Current Six Months," "Current Two Years" and so on.

11. **ASTERISK:** Indicates that there are sporadic missing issues.

12. **M CODE:** All or part of the holding is retained on microform.

13. **A CODE:** Library intends to archive this title.

14. **R CODE:** This title is available for on-site use only.

15. **CALL NUMBER:** Indicates the call number or shelf location for the title. This number should be referenced on all Interlibrary Loan forms.
